

WFH MEETING AWARENESS KIT

For Couples, Roomies, & Parents alike.

INSTRUCTIONS & Supplies

Paper (regular or cardstock), & scissors (optional glue, tape, or string)

Option One

Cut along the dotted edge, fold into thirds, and glue the edges together to create a table tent to swivel your status to your partner, pal, or young one's way.

Option Two

Cut each square and adhere to a piece of string to hang each sign individually on your "office" door knob, so they'll know not to join your conference meeting at the most inopportune time.

Option Three

Print on heavy card stock and cut each square out individually. Use them as cards to hold up when your loved one is just about to interrupt that really important thing you don't want to miss your boss saying.
